

**Cosmos:** \ˈCɒsˈmɒs\ (k[ɒ^]zˈm[ɒ^]s), n. [NL., fr. Gr. ko'smos order, harmony, the world (from its perfect order and arrangement); akin to Skr. [c]ad to distinguish one's self.]  
1. The universe or universality of created things; -- so called from the order and harmony displayed in it.  
2. The theory or description of the universe, as a system displaying order and harmony. --Humboldt.  
Origin: Greek kosmos 'order or world'.  
Source: Webster's Revised Unabridged Dictionary, © 1996, 1998

The **Internet** is a **Universe** expanding towards the **Future**. Millions of people log in, each single moment, to their PCs, Macs, Palmtops, Handhelds or Web Enabled Cell Phones and travel through the vast information highways seeking products and services, business and employment opportunities, entertainment and interaction.

And this is only the prelude of a development path that will eventually shift the **Internet** to the centre of the modern life and render it the primary means of communication, globally.

We, the SiteCosmos team, sensing the wave of the **Future**, work with the mission to explore and invent innovative ways that will help you become a significant part, a 'bright star', of the **Internet Universe**.

And right now, we are proud to offer you a pioneering, comprehensive suite of solutions for your **Internet** Presence.

**We are proud to offer you SiteCosmos**

# What is SiteCosmos™?

**SiteCosmos™** is Compucon's suite of solutions that enables small and medium sized companies, organizations, individual professionals and hobbyists, to create and enhance their web presence... Select the solution that suites you; build your web site; become a member of the multimillion, international Internet community.

**SiteCosmos™** is a marketing tool for small and medium companies and individual professionals... Exploit the benefits of your web presence; attract visitors and customers; promote your products and services; expand worldwide.

**SiteCosmos™** is the golden equilibrium between a "do-it-yourself" and a "do-it-for-you" solution, a total collection of Internet "best practices"... You don't need to plan for your Internet project's strategy, design, marketing and engineering. Each SiteCosmos solution is the result of a thorough Internet business- and requirements analysis; the perfect tool for building a complete, segment specific web site. Choose your own "Look & Feel", upload your logos and images, post your news and announcements, use the specially designed business components, take advantage of the extra features and create a unique web presence with minimum effort and cost.

**SiteCosmos™** is a complete, value adding solution... Just build your web site with our user-friendly Wizard (you only need an Internet connection and a Web Browser) and care for nothing else. We take care for every possible vital aspect like improving the business components, hosting your web site, assuring 24/7 availability and fast access and developing new features to meet your growing needs.

**SiteCosmos™** is multilingual and open... Choose as many as you want from a vast selection of languages to create a multilingual web site and make use of the extended editing capabilities that enables the design and content of your web site to be modified from anywhere, anytime and by anybody you authorize. And all that, without any extra effort or cost.

**SiteCosmos™** is not only a web site builder. It is a community of users that share common interests and concerns, coexist and cooperate with other people, companies and organizations from multiple segments and fields of expertise... Explore and discover new ideas, new horizons, new opportunities and new markets in the world of SiteCosmos.
