

The SiteCosmos™ Advantage

SiteCosmos™ provides the “golden equilibrium” in web presence approaches, balancing attributes of “Do-It-Yourself” solutions (low cost, high control and autonomy) and features of “Do-It-For-You” offerings (segment- or hobby- specific design, “turnkey” solution, professional support).

SiteCosmos™
is fantastic Value for Money!
No tricky “plans” or
“packages”; No hidden fees!

WHAT YOU SEE IS WHAT YOU GET, AND WHAT YOU GET CONTAINS:

Online, Multilingual Web Site Development Wizard!

The Online Wizard is the easiest way to create and maintain your personal or corporate Web Site. The process is structured on a sequential, step-by-step basis. Detailed instructions are provided on screen in your native language, guiding you through the process, and allowing you to preview the result of each step. You can publish your Web Site in up to 15 different languages, and modify it on a 24/7 basis; this is web development flexibility at its best!

Segment-specific Solutions and Portals!

With SiteCosmos you will never come across the ‘blank page syndrome’. Each Solution (e.g. MediCosmos, BabyCosmos, etc.) has been developed through detailed business analysis and caters for the functional and aesthetic needs of the specific business- or leisure-segment it serves. In addition, each Solution is supported by its own dedicated Portal, which allows SiteCosmos Members to network with similar companies and individuals around the world.

Content Management and Administration Tools!

Each Solution comes with its own dynamic Module Selection Tool that allows you to modify the structure and content of your Web Site in no time – as often as you like. Activating and deactivating the Modules according to your needs, without changing or losing their content, is as easy as 1-2-3! The comprehensive Site Administration Toolset also allows you to upload files, submit keywords to search engines, select your domain name, monitor web traffic statistics, etc.

Unlimited Disk Space and Bandwidth!

Your Web Site will be hosted in our fast, secure servers. Build your Web Site and care for nothing more than its content. We take care of everything else! There is no limit to the pages that your Web Site can contain. You are free to use up all of your creativity and imagination – no restrictions! Unlike other offerings, SiteCosmos provides unlimited disk space and data transfer to all its Members. Add as much content as you like and accept as many visitors as possible!

Professional Templates, Designs and Multimedia Content!

SiteCosmos offers a variety of segment-specific Templates and Designs that provides every Web Site with a unique ‘Look & Feel’. Our portfolio of available designs and ‘skins’ is being continuously updated. Features such as ‘Flash Intro Page’ and ‘Image Optimization’ ensure that your Web Site will be not only functionally complete, but also visually appealing to all visitors.

SiteCosmos™ Architecture

SiteCosmos™ is a global network...

National, language specific SiteCosmos portals (the so-called "umbrella sites") are combined with their own dedicated solution specific portals and are ultimately hosts to Members' personal sites, thus creating a community with no geographical or conceptual borders. Each member has a unique CosmosID that identifies him/her as a separate entity in the SiteCosmos community.

Exploiting the universal essence of Internet, SiteCosmos brings together enterprises and organizations, professionals and hobbyists in a synergistic community.

SiteCosmos™ is an innovative technology platform...

One of the basic mottos of the SiteCosmos community is "share everything that can be shared"; numerable tools and modules are at the disposal of all involved parties to make this happen:

Agents and Resellers have multiple enhanced capabilities for controlling their own localized portals; attracting and managing their members and customers; offering value adding services and products.

Members, on the other hand, have powerful tools and techniques for not only building a professional and visually attractive web site but also for implementing an efficient Internet marketing campaign that will bring success and profitability to their online presence.

An Intranet of Service Providers ensures that all involved parties have the convenience of outsourcing content creation tasks, such as copywriting, photo editing, translating, etc. - thus creating synergistic effects within the SiteCosmos community.

SiteCosmos™ has a powerful core..

Without any doubt, the heart of SiteCosmos is the Online Wizard, Compucon's proprietary Web Site Development and Maintenance Tool. Modular in structure, it has been specifically designed for the segment-specific needs of each SiteCosmos solution's audience. It gives our members the ability to create and maintain a complete, beautiful and functional web site without the need of any technical knowledge or skill and with minimum cost in time and money.
